1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 53-55 and 58-63 are rejected under 35 U.S.C. 102(a) as being anticipated by Schultz et al ('732).

Schultz et al discloses a multi-mirror system comprising an object plane [(300),(400)], an image plane [(318),(408),(410)], an arc-shaped field [(see figures 30, 38 and 51)], a first normal incidence mirror [(302),(402)], a second normal incidence mirror [(304),(322)] and a field forming optical component [(306 or 308),(404 or 406)], note figures 26-54 along with the associated description thereof, wherein said field forming optical component includes a grazing incidence mirror which inherently has a negative optical power. See Tables 1 to 3 along the with associated description of figures 26-54.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent 6,400,794 to Schultz et al, which is the US counterpart to WO 99/57732, clearly teaches that the field forming optical component includes a grazing incidence mirror which inherently has a negative optical power. Note claims 4 and 5.

4. The Antoni et al reference has been lined through on the Information Disclosure Statement (PTO-1449), filed on 30 May 2003, because applicant failed to properly provide a complete

Art Unit: 2872

publication date for said reference. U.S. Patent 4,294,538 to Ban and U.S. Patent 5,669,708 to Mashima et al have also been lined through because the above mentioned Patents have already been considered and made of record in previous Information Disclosure Statements. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609 ¶ C(1).

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

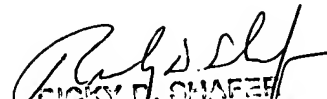

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
